

## Now Available! Single-band Unity<sup>®</sup> XG-100P

Bulletin: 2015SFM001  
Date: January 8, 2015

Harris Public Safety and Professional Communications (PSPC) is pleased to announce that its flagship product, the Unity XG-100P, is now shipping in a single-band configuration and bringing features such as integrated GPS, integrated Bluetooth<sup>®</sup>, a top display and a full-color front display to the single-band public safety market.

### Competitive Edge with Unique Features

Leveraging the unrivaled performance of the Unity XG-100P multiband radio, the single-band XG-100P provides a key competitive edge with unique features such as Active Noise Cancellation, Situational Awareness, Bluetooth Cloning and Zones operating on VHF, UHF, 700 and 800 MHz frequencies. The radio operates in P25 Conventional, P25 Trunking Phase 1 (FDMA) and P25 Trunking Phase 2 (TDMA) modes.
